

Remarks

Applicant requests entry of the amendment to the claims as presented hereto.

The claims have been further amended in an effort to further distinguish and distance the claims from the art of record and specifically from the art cited by the examiner in the final rejection of 30 January 2007. The claims previously in the application have all been amended to recite that the support that is provided is a support formed by folding and gluing construction which upon such construction cannot be unglued and returned to the unfolded blank state. The same limitation has been included in the newly added claims, all of which have been prepared to define the invention in a patentable, unobvious manner as respecting the prior art that has been cited against the application heretofore. Prompt reconsideration and allowance of the application, in its currently amended form, is respectfully solicited.

Attached is a Request for Continued Examination.

To the extent there is any fee required in connection with the receipt, acceptance and/or consideration of this paper and/or any accompanying papers submitted herewith, please charge all such fees to Deposit Account 50-1943.

Respectfully submitted,

ATTORNEY DOCKET: 78803.03501
